IELTS TIPS & STRATEGIES

The Biggest Mistakes Made by IELTS Students

Mistake 1: Not knowing the standard of IELTS Examination

Many students sit their examination unaware of examiner expectations and do not provide well structured answers that can be awarded maximum score.

Many are unaware of the depth of basic skill required and concentrate their study time on the specific topics, at the expense of other topics that may appear on the exam.

Too many students also fail to meet the expected exami-

nation standard, making minor mistakes that could otherwise have been easily awarded.

This scenario is most commonly due to the fact that students often underestimate the examination itself.

They come to the examination unprepared or full with their own assumptions or myth about the IELTS exam.

Mistake 2: More is less & Less is less

A very common mistake is to answer in more words than instructed.

If the task says "Not more than 3 words", answering in 4 or more words will definitely cost marks.

The length of a written task is crucial. When instructions mention a minimal number of words (250 for essay, 150 for report or letter), it means that any work shorter than required will be penalized.
