Modern age, is the age of new and advance technology. Only with modern course modules and subjects, we can be qualified to various fields of education. For good qualification we need higher degrees.

These days, people got wide mind about education & its systems. People won't compare money & education, compare with early years. To build a nation we need all kind of well well educated or trained citizens, which only various kinds of colleges can provide to country.

In hence, advance technology or system has been practised in various nations. Government and organizations raising funds for better education. In my country, medical and colleges, technical institutes, engineering colleges are helped by foreign countries, funds and by Government. These helps, will help to produce various kinds of skilled man powers.

There was a time, due to lack of education & enough money multiple colleges and optional subjects doesn't used to be appeared. In my home town there were just two colleges of Arts & commerce. For reason I moved to big cities & up to abroad.
